"An anonymous questionnaire-based study  
from DCU School of Nursing and Human  
Sciences is exploring the memory mistakes  
people make in everyday life and the possible  
relationship between memory errors and age,  
gender, mood state and fatigue. The  
questionnaire takes approx. 20 minutes to  
complete.  
This information may help GPs judge the  
potential seriousness of an individual's memory  
complaints.  
If you are interested, aged 50 or above, and  
you do not have a diagnosis of dementia,  
Parkinson's Disease or a neurological condition  
that impairs cognition, stroke, tumour,  
significant psychiatric or learning disability, or  
severe hearing or visual impairment, please

Surprised by the Spirit  
In preparation for Pentecost, come and reflect  
on the words of the Sunday readings, as  
recommended by Pope Francis in *The Joy of the  
Gospel*:

In the presence of God, during a  
recollected reading of the text, it is  
good to ask, for example: "Lord,  
what does this text say to me? What  
is it about my life that you want to  
change by this text? What troubles  
me about this text? Why am I not  
interested in this? Or perhaps: What  
do I find pleasant in this text? What  
is it about this word that moves me?  
What attracts me? Why does it  
attract me?"

Wednesday mornings from 6<sup>th</sup> April to 11<sup>th</sup> May,  
10-11 am, in Room 1, Parish Centre.

Come when you can. Further details: Ann-Mary
