Question Time?

Q) Why did they have to put big words like 'consubstantial' into the new translation of the Creed?

A priest friend of mine told me the word isn't even in his dictionary!

A) There is no simple English word to express the deep theology of the unity of Jesus Christ with God the Father. The old translation was 'of one Being with the Father'. *Being* is a shorter word than *consubstantial* but it is a philosophical term not easy to understand. The former translation was just as difficult as the new. As for your priest friend, get him a decent dictionary for Christmas
