**Exercise Dementia
Prevention study**

A European study involving Trinity College Dublin
seeks
volunteers over 50 with mild memory problems
to search for possible links between exercise and
dementia prevention.

- Do you have memory problems that don't
interfere with your day-to-day function?
- Are you becoming more forgetful?
- Would you be interested in taking part in a 12
month exercise based research study?

Interested participants will be sent a study
information leaflet and invited to attend a screening
clinic.
If you are interested and would like to receive more
information, please contact a member of the
research team.
